Apple TV Remote Functions

Record

- To record a program, simply use your **Touch Surface** and scroll down to the program you are trying to record. A menu will appear, scroll to the right until "Record" is selected and click the center of your **Touch Surface**. A message will appear that the "Recording is Set!" and if you would like to "Record all episodes" or "Record this episode only". Select the option that works best for you and you have now successfully set up your recordings for that program.
- If you want to record from your Guide screen. Simply click the **Menu** button on your remote and then select Guide. Select a program that is capable of being recorded and use your **Touch Surface** to scroll to Record. Press the center button on your **Touch Surface** to begin recording. A message will appear saying "Recording is Set!" and if you would like to "Record all episodes" or "Record this episode only". Select the option that works best for you and you have now successfully set up your recordings for that program.

Cloud DVR

- To access your Cloud DVR recordings, simply click the **Menu** button on the remote.
- Scroll to the right using the **Touch Surface** area of your remote until you highlight the profile icon. Click the center of the **Touch Surface** area on your remote control.
- You are now able to manage your Cloud DVR. By default, you will see the recordings that are currently available to you. You have to use the **Touch Surface** area of your remote to highlight the title you'd like to play. Click the center of the **Touch Surface** area on your remote to begin watching.
- If you want to manage your upcoming recordings, scroll up using the **Touch Surface** area on your remote until "Recorded" is highlighted at the top of your screen, then scroll to the right to select "Scheduled". From here, you can manage all your upcoming recordings.

Restart

- When you click on a program that is currently in session and that program is capable of using the Start Over feature, you will be prompted with a pop up: "Play from the Beginning?". All you have to do is click the center button within your **Touch Surface** area of your remote to select "Yes".
- If you decide later that you'd like to watch a program from the beginning, you can do that easily as well. Use your **Touch Surface** and scroll down. You will see a menu of different items, Restart should populate first. If it does not, scroll until Restart is selected. Click the center of your **Touch Surface** to watch your program from the beginning.

Replay

- To access Replay, click the **Menu** button and then select **Guide**.
- Using your **Touch Surface** scroll to the left. You will see a new menu pop up with "Replay" highlighted.
- Click the center of your **Touch Surface** to select "Replay".
- From here you can browse programs and movies available to be replayed. Simply select a title to begin watching.

Remote Functions Continued

Filters

- To access your Filters, click the **Menu** button and then select **Guide**.
- Using your **Touch Surface** scroll to the left. You will see a new menu pop up with “Replay” highlighted. You will need to use your **Touch Surface** to scroll down until “Filters” is highlighted.
- From here, you can select from various categories that you are interested in viewing.
- To return to the Guide, use your **Touch Surface** to slide left to get back to the Guide Menu.

Search

- To easily search for the content you want to watch, click the **Menu** button on your remote.
- Using your **Touch Surface**, scroll to the right until you highlight the magnifying glass icon. Click the center of your **Touch Surface**.
- Begin typing the title of what you are searching for. Your search results will start to populate. Once you are done typing, scroll down and select the title by using the center of your **Touch Surface**. You may have a plethora of options to select from, please select the option that works best for you.
- Instead of typing, you can also hold down the Siri button on your remote and say the name of what you'd like to search for and release the button. Your search results will now populate so you can scroll and choose the results that best work for you. Make sure you're within the “Search” feature when using this function.
